Six Zone PSU Switched

Specifications

- BS-PSS6W
- 6 Zone PSU Switched Rack Mounted
- Input Voltage 85-264V AC
- Input Frequency 47-63Hz
- Max Input Current 3.2A @100V Input
- Nominal Output Voltage 24V DC
- Max Load 60 Beams/Domes
- Control Output Impedance 10Ω
- CE Compliant
- CUL Compliant
- Rack Mount or Wall Mount
- Rack Mount Dimensions
W483mm x H88mm x D196mm
- Wall Mount Dimensions
W318mm x H253mm x D90mm

The BS-PSS6W is a six zone power supply for the BlueDome and BlueBeam range of light fittings with dry contact switch inputs. Each output on the BS-PSS6W can be preset by means of a 'TOPSET' inside the unit. All outputs are protected from overload and short circuits by a user changeable fuse also located inside the unit.

It is an ideal Power supply when designing an installation with straight forward control of the fixtures and easy installation.
